

Workshop	WSPID Symposium	Sponsored Session
Meet the Professor	Oral Presentations	Society Symposium
Social Event	World/ Special Lecture	Controversies Session

Saturday, December 2, 2017					
	Bougainvillea Hall	Plum Blossom Hall	Peony Hall	Chrysanthemum Hall	Rose Hall 3
08:30-10:00					Fellow Workshop
10:00-10:30	Coffee Break				
10:30-12:00	Sponsored Session				Fellow Workshop
12:00-13:00	Lunch Break				
13:00-14:30	Sponsored Session- Sanofi Pasteur				Fellow Workshop
14:30-15:00	Coffee Break				
15:00-16:30	Sponsored Session				Fellow Workshop
16:30-17:00	Break				
17:00-18:30	<p><u>WSPID Symposium 1</u>  <b>Newborn infections (global and local contexts)/ ANISA study dissemination</b>  Etiology of Neonatal infections – Update from SANISA  <b>Shabir Madhi, South Africa</b>  Etiology of Neonatal infections – update from ANISA and other contemporary studies  <b>Samir Saha, Bangladesh</b>  Updated evidences on neonatal sepsis – Next steps and possible implications in global estimates on cause of neonatal deaths  <b>Zulfi Bhutta, USA</b></p>	<p><u>WSPID Symposium 2</u>  <b>Viral hepatitis in children: Epidemiology, treatment and prevention</b>  Global epidemiology and prevention of hepatitis B  <b>Ping-Ing Lee, Chinese Taipei</b>  Treatment of chronic Hepatitis B and C in children    Lessons learned after single-dose universal program in toddlers with hepatitis A vaccination  <b>Carla Vizzotti, Argentina</b></p>			
18:30-20:00	Opening Ceremony followed by a Welcome Reception				

Sunday, December 3, 2017

	Bougainvillea Hall	Plum Blossom Hall	Peony Hall	Chrysanthemum Hall	Rose Hall 3
08:00-08:50			Meet the Professor	Meet the Professor	Meet the Professor
08:50-10:20	<p><u>WSPID Symposium 3</u>  <b>The introduction of PCV, rotavirus and HPV vaccines in the national immunization programs in Asia</b>                      08:50-09:00 Introduction                      Miguel O’Ryan, Chile                      09:00-09:20 Pneumococcal vaccines                      Kim Mulholland, Australia                      09:20-09:40 Rotavirus vaccines                      Edmund Anthony Nelson, Hong Kong                      09:40-10:00 Human papilloma virus vaccines</p> <p>10:00-10:20 Discussion                      Moderators and panel</p>	<p><u>WSPID Symposium 4</u>  <b>The global emergence of Zika virus infections</b>                      Epidemiology of Zika virus infections                      Kristy Murray, USA                      Clinical manifestation of Zika virus infections                      Kleber Luz, Brazil                      Preparing for threat of Zika virus in Asia                      Tawee Chotpitayasunondh, Thailand</p>	<p><u>WSPID Symposium 5</u>  <b>Basics of epidemiology: How to understand impact studies?</b>                      Efficacy, effectiveness, impact – clear definitions, common confusion                      Ron Dagan, Israel                      Multiple outcomes in vaccine – how to measure impact? The Pneumococcus story                      Laura Hammitt, USA                      Can we predict impact through efficacy – is modelling a myth?                      Lone Simonsen, USA</p>		
10:20-10:45	<i>Coffee Break, Exhibition &amp; E-Poster Viewing</i>				
10:45-12:15	<p><u>WSPID Symposium 6</u>  <b>Influenza in children: epidemiology, treatment and prevention</b>                      Epidemiology and treatment of Influenza in South-East Asia</p> <p>Childhood vaccination- LAIV or inactivated influenza vaccine                      K. Zaman, Bangladesh                      Impact of maternal vaccination on mother, fetus and infant                      Marta Nunes, South Africa</p>	<p><u>WSPID Symposium 7</u>  <b>The immunology of vaccination</b>                      The Immunology of Vaccination                      Arnaud Marchant, Belgium                      How to understand immune responses by using systems vaccinology in children                      Dimitri Diavatopoulos, The Netherlands                      The Future of Infant Vaccination                      Kathy Edwards, USA</p>	<p><u>WSPID Symposium 8</u>  <b>Epidemiology, diagnosis and treatment of childhood tuberculosis</b>                      Epidemiology of childhood TB in Asia                      Naveen Thacker, India                      Current progress with diagnostic tests for TB                      Nigel Curtis, Australia                      Treatment of MDR-TB in children</p>
